ORGANIC NUT BUTTER

WELCOME TO ORIVEGO®

ORIVEGO offers healthy food for active people - from everyday health-conscious to professional athletes. We aim to make and deliver fresh and tasty, always at-hand nutrition options.

We believe tasty can also be good - both for you and for the environment. Our nut butter is 100% vegan, natural and certified organic, offered in environmentally conscious packaging solutions. Our commitment to the environment extends in our production, where we work with local farmers by repurposing all of our organic waste.

WE OFFER

New tasty flavour innovations

We all know that flavour drives the purchase - among our classic Smooth, Crunchy and Almond variants, we stand-out by offering new flavour innovations like delicious Hazelnut with Cocoa, Peanut with Hemp and Peanut with Dates.

Convenient packaging for new occasions

Consumers look for healthy snacks, and peanut butter is a perfect option. Among a variety of our packaging options is new and convenient, resealable mini pouch with the spout for on-the-go occasions.

100% Vegan and gluten-free

Vegan and gluten-free foods is a new megatrend. Not only that, our products do not contain added sugar, palm oil, preservatives or other additives.

100% Natural and certified organic

As an EU Organic certified producer we select and use only highest quality ingredients, and follow strictly controlled production process.

Always fresh, made in small batches

ORIVEGO is produced in small batches and always comes fresh. We pay attention to every step and every detail of our production, ensuring consistently best taste.

FLAVOUR LINE-UP

Smooth and Crunchy Peanut

We offer classic peanut butter with exceptional taste, by doing something that almost no one else does – splitting peanuts and removing hearts to eliminate bitterness. Our fresh peanuts are roasted to the perfect taste and flavoured with a pinch of sea salt. Get smooth, or crunchy!

Smooth Almond

A lot can be said about the taste riches of fresh Smooth Almond – it is a healthy delight. Made from roasted Valencia almonds, it is naturally sweet, full of flavour, and meant to be enjoyed.

Hazelnut with Cocoa

Hazelnut and Cocoa is a tasty combination, a perfect choice for a sweet tooth. A tiny bit of sweetness comes from a drop of natural and organic agave syrup with a low glycemic index. A perfectly healthy pleasure.

Peanut with Dates (NEW!)

Peanut with Date is for the ones who like trying new things – and why not, because Peanuts and Dates were always meant to be together. All-natural, rich in flavour, slightly sweet, and very tasty!

Peanut with Hemp (NEW!)

Peanut and Hemp is a nutritious match made in heaven. Peanut butter is a great source of protein, fiber and good fats, while hemp protein adds Omega 3 and Omega 6 amino acids. A perfect addition to the day!

Peanut with Super Seeds (NEW!)

It is no surprise that hemp seeds, flax and chia are called super food. Packed with minerals, vitamins, essential amino acids and dietary fibre they benefit your daily nutrition and add a pleasant crunchiness to our delicious smooth peanut butter.

PACKAGING LINE-UP

Packaging Type	Pouch with spout	Small jar	Medium jar	Big jar	Tub

SUSTAINABILITY ♥

ORIVEGO is a small family company that cares deeply about sustainability and responsible way of doing business. We focus our efforts on our environment, our consumers and our community.

Our journey starts with our innovation process. We believe that plant-based, vegan diet is a great solution to many environmental and health challenges we face, hence all our products are strictly vegan. We restrain from added sugar and look for ways to improve our products by experimenting with new ingredients like extra hemp protein, or fiber-rich nutritious seeds.

Our journey continues with the choice of raw materials. We believe that avoiding chemical fertilizers, pesticides and GMOs are better for our health and our planet. Because of that, we use only organically grown ingredients sourced from certified organic European suppliers. We never use palm oil because of its connection to environmental degradation, and the negative health effects of hydrogenated oil.

We are proud that our production process creates almost no waste and supports community. Organic leftovers such as peanut skins and hearts are given to local farmers to be used as feed or fertilizer while remaining non-organic leftovers are sorted and recycled, and our production facility provides much-needed jobs for the rural community.

When it comes to packaging, we choose based on facts, even if they are unpopular. Compared to glass, plastic creates significantly less CO2 emissions during its life cycle and remains the most sustainable choice. For this reason, the majority of our packaging is fully recyclable PET plastic, although we also offer glass containers. We strongly encourage our consumers to recycle packaging, and in fact, we achieve around 92% recycling rate back in Lithuania.

Small things matter. When shipping, we use recycled paper-based transportation boxes together with paper-based taping.

Sustainability is a continuous process. Our next targets are switching to renewable energy sources and achieving net-positive effect to the environment.
