

„AUROVĖ“

AUROVE brewery is offering never seen before and one of a kind new product- craft beer set. Product is unique because the consumer does not buy an already made beer but rather a beer wort and in six days by following easy steps displayed in the instruction produces natural, unpasteurized beer .

Beer set contains: PET bottle of beer wort,
capsule of beer yest, special patented bottle cap, instructions.

Consumer just needs to unpack the beer set, put in the capsule of yest and pop in special patented bottle cap. Then wait for six days before its ready for consumption

Beer set does not require any special conditions of storing, transportation. Storage temperature should be from +2°C to +20°C. Product expiration date is within 3 months. Only natural products were used in the making of the beer wort: water, malt, hops, yeast. The final product contains natural CO₂ (natural carbonization)

There is no alcohol excise tax for this product.
