**Description**

UAB "SCT Lubricants" is a leading manufacturer of high-quality automotive and industrial lubricants, oils, greases, coolants and other liquids. All our products are produced according to the highest standards and meet and even exceed the specification requirements of vehicle engines manufacturers. We have official O.E.M. approvals that our engine lubricating oils meet the requirements in accordance with standards of the major vehicle engines manufacturers. UAB "SCT Lubricants" is owned and controlled by German company "SCT-Vertriebs" GmbH. Today, having one of the most modern production and laboratory testing facilities in Europe, our 130 employees are working to satisfy our clients' needs in more than 60 countries on all five continents. Our testing laboratory meets the requirements of the latest ASTM standards ensuring the highest quality, and our finished products can reach their destination quickly and safely due to our in-house can production.

---
