## Description

Since JSC “Dažų ir dangu fabrikas” founding in 1996, technological advances have greatly improved our coatings, however our original mission to manufacture quality coatings with integrity, trust and loyalty remains unchanged. Almost 20 years later “Dažų ir dangu fabrikas” continues to offer quality products for all its customers. We produce under our own brand „Eurolux” as well as under client’s own label. As a producer we can develop your own custom tailed products. The main processes of our company is production of primers, automotive paints, clear coats and hardeners. Hardeners we are producing under nitrogen, which ensures a high quality and long shelf life. Our laboratory constantly controlling, developing and creating new products to fulfill our client’s wishes. We have a full range of the newest car colors. From solid to metallic, pearl and xiralllic effect.

---

## Business Line
