Description

JSC Birštonas Mineral Water is the first and oldest Lithuanian bottled mineral water producer, situated in Birštonas - one of the oldest balneological resorts in the largest protected (over 25.000 ha) regional park in Lithuania. Today, JSC Birštonas Mineral Water is the leading non-alcoholic beverages company in Lithuania with a market share of 20%. Our group of modern facilities combine both advanced technologies and strictest methods of quality control, aiming at delivering natural mineral water to our worldwide consumers as it had been drawn from its natural source. At present, our brand portfolio includes Natural Mineral Water Akvilė, Vytautas & Birutė. Production is exported to over 16 countries including UK, Ireland, Germany, Russia, Latvia, Estonia, USA & China.

Business Line

Natural mineral water

List of products

Natural mineral water Akvile: 100% PURE & SUITABLE for BABIES 0 Nitrates & 0 Nitrites : perfectly pure & suitable for baby food. Low in Sodium: Na+ - 2,3 mg/l. Alkaline Water: Naturally balanced: pH 8. Natural mineral water Vytautas: Vytautas (sparkling) contains the highest amount of essential minerals (i.e. calcium, magnesium, potassium, etc.) among all the natural mineral waters in the Baltic States. When drinking 1 liter of Vytautas natural mineral water, your body receives the daily recommended amount of essential minerals. Natural mineral water Vytautas strengthens the immunity system by recovering lost energy with its useful minerals (Mg, CA, K). Natural mineral water Birute: Birutė is a naturally softer mineral water full of essential minerals: Magnesium guarantees the peace of mind; Calcium keeps your nails strong, makes your hair shine and puts a blinding smile on your face; Potassium serves for the strenght of the heart.
