Description

We are the largest candle manufacturer in Lithuania, that have been in business since 1995. We have always followed the highest quality standards and that allowed us to be leaders in our local markets. We supply our products to Lithuanian, Latvian and Estonian markets. We currently installed the latest technologies in our production lines which allowed us to increase the production and keep the same high quality of our products. In manufacture process we use effective production planning technologies from Japan company Asprova and equipment of a German company – Herrhammer. Our company has a flexible production planning system, thus we accept different size orders. We successfully cooperate both with small and medium size trading companies and with large trade networks of the Baltic region. We are caring company – we care for our work quality. Most people in our company have been there since its foundation. We constantly improve together our work on Toyota production philosophy (LEAN, 5S, Kaizen Teian). We can create and manufacture unique candles that bear your trademark: we can offer and develop the concept of candles, make them of the desire materials in desire containers.

Business Line

Currently we produce 3 lines of candles:
