Description

OPACK - manufacturer of paper cups We produce and supply high quality products according customers' individual needs. We seek to get known as a reliable and flexible high-quality paper cups manufacturer in Europe in B2B sector. The main aim of OPACK – produce and supply high quality products for each client according to their individual needs. Our vision is to become known as a reliable and high-quality paper cups manufacturer in Baltic countries. Company focuses on effective manufacturing process which is oriented into the quality and exclusive design. When our client has a wish to have his own paper cup we do everything else: designing, printing, packaging, storage and delivery. We can be useful for different businesses: disposable dishes distributors, vending and catering companies, and for every, who wants to advertise the company brand on such popular item as paper cups.

Business Line

Paper cups
