Description

JP Manufactory provides jewellery design and production services. We specialise in jewellery production and wholesale and have been successfully operating in Lithuanian market since 1993. Modern equipment, high quality materials and professional staff enable us to ensure the high quality of jewellery pieces. With our expertise and experience, we are able to meet the highest expectations. We work with suppliers from all over the world: Germany, United Kingdom, Italy, Denmark, USA, Poland, etc. Already for a number of years, JP Manufactory has a reputation of a reliable and experienced jewellery producer well known in Lithuania and abroad. We are ready to meet the expectations of the most demanding clients and offer qualitative products at competitive prices. We can produce jewellery according to the client's own specific design or according to our own samples. We would be happy to help you!
