Description

Jugrita Ltd – established 1998, progressively operating company and provides a wide range of emergency medical equipment for military, ambulances, rescue and special services. Together with the partners we build and equip ambulances. The company from very beginning provide only the best quality medical equipment that meets the highest safety and quality standards and the demands of even the most demanding customer needs. Lithuanian soldiers were using and use our products supplied to Afghanistan, Iraq and other missions. Since 2014 Jugrita Ltd. is member of the Lithuanian security and defense industries Association. The company successfully cooperates with the world and European manufacturers with substantial experience and a good reputation in this field. Jugrita Ltd. supplies equipment not only for Lithuanian Emergency Medical Centers and Latvian Emergency Medical Department, but very successfully participates in other countries organized projects related to emergency medical assistance and ambulance cars.
