## Business Line

PassCamp

---

## List of products

PassCamp - a password manager that protects sensitive information by keeping it with your team. With PassCamp you no longer need to store passwords in unsafe files or browsers and risk getting hacked. Zero-knowledge end-to-end encryption ensures that only users you share information with can access it. By using

zero-knowledge cloud even PassCamp knows nothing about your passwords and no one is capable of breaching your secret data. With PassCamp your team can easily store, manage and share an unlimited number of passwords in a secure way. PassCamp also allows you to administer your team members' accessibility to certain passwords, create and share secure notes within your team, and track newly added or changed passwords.
