## Description

Granplasta, JSC has been producing polyethylene packaging since 1999. Since the beginning of its activities the company has been purposefully trying to achieve its main goal - assurance of outstanding production quality. High quality raw materials, modern technologies and focused, time-tested work procedures used by our personnel as well as our constantly increasing know-how guarantee the highest quality of our products. Polyethylene packaging is unnoticeable but yet essential in every step of our life. We make products for various industries. We try to fulfil all orders as soon as possible and to satisfy all requests of our capricious clients. We work with clients from Lithuania and abroad and constantly expand our activities by looking for regular clients. Granplasta, JSC has earned a name of a reliable and honest partner among its suppliers.
