Description

Private limited liability company (UAB) "Gijona" was established in 1996 and located at Kęstučio Str. 1M, Lentvaris, Trakai district. We are Lithuanian and German capital company. UAB "Gijona" implements different tasks according to the customer's requirements and technical documentation provided by them. Since the establishment the company consistently develops services and seeks a mutually beneficial cooperation with clients and partners. A high quality of the services we provide is guaranteed by our long-term partnership with German companies. We have already been steadily working with the same customers for 18 years. The company exports up to 98% of its production to Germany. Currently around 100 qualified employees work at UAB "Gijona". The quality management system of UAB "Gijona" is performed and certified in accordance with the requirements of the standard LST EN ISO 9001:2008. In 2011, the auditors of the international certification society TÜV CERT performed an extensive accreditation audit of UAB "Gijona" and, as a result, the company has received the certificate. Modern equipment, tools, materials and complete set products are used in the technological operations of the company manufacturing processes.
