Description

Started in 1991, "Vigintos Elektronika" has become one of the largest manufacturers and developers of reliable high-quality broadcasting equipment. Our production is successfully exploited in Russia, CIS, EU and Asia-Pacific Region countries. We carry out necessary works "on a turn-key basis" and offer optimal technical decisions focused on anyone. If You wish to setup a TV- or FM broadcast station quickly, efficiently and cost-effective - "Vigintos Elektronika" is Your choice. We will do everything for Your success. At a present time, company successfully keeps growing and expanding.
