Description

We are the most diversified company in the Baltic countries specialized in supply of raw materials. 16 of our companies in Eastern Europe are valued for a fair approach to partnership and a unique corporate culture. We have a clear long-term development and sustainable growth plan for all business groups. We keep Eastern Europe our key market, therefore there we consistently expand our customer base. Now we have more than 4,000 clients. Imlitex Holdings qualified specialists serve about 2000 different products for almost all industries. Our agents and offices in many countries around the world representing the interests of Imlitex Holdings in raw materials purchasing and selling process also verify the supplier and customer reputation and product quality. Particular attention is given to long-term relations and understanding clients' needs; we are able to provide them with raw materials, solve logistical problems, and often energy needs.
