## Description

Aida Dirse / Saulius Dirse We have been producing hand painted bowls for over 15 years. We are looking for new contacts for our works for sale and exhibition opportunities. Each piece is hand-carved and features Dirse's signature brush marks. Couverture and the Garbstore from London about us: "Long Term Partner | Aida Dirse" "Introducing the family duo behind some of our favourite ceramics. Aida Dirse is a creator of the hand carved, hand painted ceramic bowls that have become so popular in store at Couverture. Forming a creative partnership with her husband Saulius the pair have a laid back approach to their craft. Aida's Ceramic bowls have a modern folk-style appeal, each with a textured exterior and brightly coloured interior bearing unique patterned design. Often experimenting with abstract dots or delicate brushstrokes each pattern is impeccably detailed and alluring."
