Description

Being open to the best global experience has been important for ISM ever since it was founded. ISM was the first in Lithuania to introduce the Western tradition of business studies. Today the university not only draws on this knowledge, it also supplies the international community with information about the dynamic business environment of the Baltic States. • Established in 1999 by BI Norwegian Business School and the Innovation Norway. • The first private university in Lithuania. • Undergraduate, graduate, executive and doctoral studies. • About 2000 students. • More than 5000 Alumni. • Assessed by the Central and Eastern European Management Development Association (CEEMAN), awarded for the quality of studies by EDUNIVERSAL Business Schools Ranking, aspires to get accredited by the global business education network and association AACSB, which represents international business and community recognition. • Over 100 partners' universities all over the world. • Exchange and double-degree programmes in more than 40 different countries on all continents of the world. • ISM lecturers – professors from around the world and business professionals. • State-of-the-art learning and teaching facilities. • The modern library having the largest recent business books and access to key databases. • Innovation base for startups.
