Description

The Litilit approach will position us as a leader in the next generation of ultra-short pulse lasers. We are a team who seeks to accelerate change in the industry by creating well-designed, affordable, femtosecond lasers driven by reliability, cutting-edge technology, and accessibility to each of our clients who chose us for our passion when it comes to the development of ultrafast laser technology.

Business Line

Production and development of ultra fast lasers

List of products

Industrial femtosecond laser Indylit 10; Femtosecond fiber laser for biophotonics Biolit2; Ultrashort pulse fiber seeder for laser amplifier Neolit
