List of products

Serfy is a task management software for commercial property maintenance and Vendor management. Serfy connects tenants, property managers and their Vendors into one effective communication network. The result - Serfy helps to save time and money in daily maintenance activities such as automatic issue distribution, communication, instant status updates and feedback. Tenants or property managers report issues to the Vendors, keep track of issue statuses, chat, actions history, reaction times and much more. Today Serfy is used by >300 Companies. Among them - SOL, Caverion, Dussmann, Quadrum, Eika, InReal, Maxima,...
