Description

Limarko UAB is the managing company, controlling major stakes in Limarko Group companies. Limarko UAB provides services relating to maritime business including cargo chartering and ship broker services. We provide full scale ship management services as per "Shipman" terms including commercial, technical, crewing management, etc. We have accumulated vast experience in working with various flag administrations and classification societies. We provide ship repair and technical supervision services in Klaipėda and other ports. Our mobile team of skilled technicians performs ship repair services on board of ships whilst staying at ports or during sea passage, which allows avoiding delays.
