Description

NEO Finance Group – the group of fintech platforms that offers a wide range of financial services in the European Union since 2014. The Group unites the largest peer-to-peer lending platform in Lithuania NEO Finance, the partner for electronic payment solutions in EU Neopay, and crowdfunding platform FinoMark for business financing. Today we are one of the biggest payment initiation services company in Baltic countries. Our market share exceeds 50% our native market – Lithuania. However, one of our business biggest goals is to continue expand our services, what we are already doing successfully – Neopay provides payment initiation services in more than 15 countries to over 200 financial institutions.
