## Description

Lemona is one of the largest companies in the Baltic States selling electronic parts and components. We offer more than 5,000,000 brand-name goods, such as electronic components, spare parts and accessories for domestic appliances, lead accumulators, power supplies, LED light, industrial automation components, tools and materials, sound and lighting equipment, car audio system and multimedia, home and vehicle security systems, solar and wind energy sources. Thanks to advanced business and work management program we supply goods to our customers from various electronic components manufacturers and procurement agents world wide. UAB Lemona, Lithuanian capital company, was founded in 1992. Thanks to purposeful work and consistency of highly qualified employees and smart business solutions, our company achieved strong market position. Today, our customers and suppliers acknowledge us as a partner that professionally, reliably and quickly meets their needs.
