Description

UAB Biotecha a private limited liability company is one of the few companies in the Baltic countries with many years of experience in life sciences, pharmaceutical, food and beverage technologies. In 2013, joint companies were set up in the Baltic States: SIA Biotecha Latvia and OÜ Biotecha Eesti. With many years of experience, Biotecha now offers solutions and supplies devices for your scientific analysis, manufacturing processes and process controls. The company delivers, installs and maintains industrial and laboratory equipment. Biotecha has implemented a quality management system certified according to the ISO 9001:2008 international standard. The scope of this certification includes: sales, design, installation, service of laboratory, industrial, medical equipment and consultation on technical and scientific matters. This includes the sale of biomonitoring and filtering equipment, the elements of chemical and biological agents, industrial raw materials and other consumables.
