**Description**

JSC "WSG projects" is an innovative and enthusiastic company located in Lithuania. The company's main goal is to provide impeccable quality assurance which conform all customer needs. When choosing partners for cooperation, we focus on high quality requirements rather than on price. We design and manufacture frameless glass constructions, modular partitions, aluminum terraces or various products made of stainless steel and metal. For Scandinavian markets JSC "WSG projects" offers Scandinavian windows and doors that are tailored specifically to the Nordic countries and it opens outward. frameless glass construction glass railings frameless partition wood windows and doors stainless steel and metal products sliding systems
