Description

QS Lasers is designing and manufacturing DPSS, compact lasers and laser systems for OEMs and integrators. Less than 350ps pulse duration, high pulse energy up to 1mJ and 1000Hz repetition rate is used in medical systems, remote sensing, LIBS and many others.

Business Line

Production of compact lasers

List of products

MPL1310 model delivers >1mJ, 1-100Hz, <350ps (passive Q-switching) MPL15100 model delivers >0.5mJ, 1kHz, <700ps (active Q-switching) MNL1342 model delivers 0.1mJ, 1kHz, <3ns, 1342 nm, 671 nm, 447 nm (passive Q-switching)
