Description

We are the first and only biotechnology company in Lithuania manufacturing advanced therapy medicinal products (ATMPs) individually for each patient. We develop our products using patients' own tissues and cells in the manufacturing process, and by addressing the specific needs of each person in field of: oncoimmunology, traumatology, auto-immune diseases and cosmetology. In addition to that we provide tissue bank services and contract manufacturing solutions.

Business Line

manufacturing advanced therapy medicinal products (ATMPs), contracting manufacturing for clinical trials and ATMP R&D projects
