**Description**

We are Lithuanian manufacturer offering progressive design panel houses in different shapes and sizes. You are offered a range of garden houses, summerhouses, living houses and garages for a fair market price. Being customer focus, we offer a possibility to design a panel house product to meet your individual needs and vision. Sole Proprietorship company Promodum has been working in building industry since 1992. Now we are reopening our business activity and turning it to panel house manufacturing. Our team has obtained panel house business experience in Lithuania, Sweden and the Netherlands. Our business acts in local retail market and looking for wholesale export partners in other European markets. We are committed to building strong long-term relationship for mutually beneficial trade. .
