Description

We are a 10 people team of bedroom & sleep fanatics from Lithuania. Our passion for quality sleep in an undisturbed aesthetical environment led us to create bedroommood bedding. We source fabrics, manufacture all the bedding, run our online store all by ourselves. All our bedding products are OEKO-TEX certified. Our products are sold globally. We are starting to export them to China and we're currently looking forward to selling wholesale in Europe. We can also manufacture products for other brands and deliver the same quality and standards that we have achieved with bedroommood bedding products.
