Latvia

Description

Furniture has become a business built on mass production, but life isn't uniformed and neither are our homes. We provide furniture that is built specially and only for you. There is no inventory here, there are craftsmen, and they are intricately laboring over the custom details of your piece.

Business Line

Custom made furniture

List of products

We are not a box store. Every piece we build is specific to each and every customer. You tell us the size, shape, and finish.
