Description

We are middle-sized and specialized. SoliTek's main business is the manufacture, sale, and delivery of glass-glass PV solar panels, designed for rooftops. All of our products are manufactured in the EU, using 100% renewable energy only. OUR CUSTOMERS Over 60% of our solar panels is exported to Sweden, Norway, and Germany. Over 90% to the EU as a whole. The majority are PV installers, distributors, and project developers in the EU. THE PERSONAL APPROACH We pride ourselves on being quicker, and more flexible than any other solar panel manufacturer in the world. It takes 3 hours to fly between Vilnius and any point in Europe, putting us closer to you. Average response time to inquiries and questions is under 2 hours. We will reply to 100% of inquiries within 24 hours.

Business Line

PV solar panels
