Description

SOLIDU is environmentally conscious solid cosmetics brand from Lithuania. Using only high quality concentrated active ingredients and no water, SOLIDU bars come without any plastic packaging. While your everyday haircare products contain around 80% water, SOLIDU haircare bars are made only from the stuff that you need: skin-loving active ingredients, botanical oils, extracts and natural essential oils. Easy to use, good for the planet, good for your hair.

Business Line

Sustainable Solid Cosmetics
