## Description

SUPER HOW? is a research and innovation (R&I) company with proven experience in blockchain, AI, digital assets and CBDC related projects. SUPER HOW? works with innovative finance initiatives and projects, both with enterprise and private sectors, including experimental projects with central bank digital currencies (CBDCs) on multinational banking infrastructures, tokenization of regulated markets, sustainability related data (ESG) and more. The company also develops new business concepts by merging different business domains like Fintech, fine arts, Metaverse, NFTs and DeFi, CeDeFi, green finances, ESG accounting, impact investment projects and real-time economy solutions.

---
