Description

Muista is a young company that designs and manufactures furniture, with a special emphasis on balance chairs.

Business Line

Chairs

List of products

Unique 2-in-1 rocking chair encourages smart sitting Muista is a healthy alternative to regular desk chairs that lets you decide how you want it: sit still or fidget, sway or wiggle both by sitting saddle-like or bench-like. Both sitting positions are quite different in that they make different muscle groups work while sitting – the saddle position gives you forwards rocking direction while the bench makes it sideways. Muista comfortably and effortlessly accommodates movement while sitting. As some medical studies showed – micromovements,

fidgeting can be enough to cancel out the negative effects on your health caused by prolonged inactivity while sitting for hours*.
