## Description

Professional SEO services for a business – probably the most effective way of web advertising which increases the flow of visitors and the flow of sales. Market Rats is one of the first and biggest specialized SEO companies in Lithuania, working from 2010 on the SEO market. Specialization - constantly monitored projects. If there is a need, we do one-time optimization works, however, we specialize in long-term projects. Our strategy is based on individual work, individual experience and individual approach. Every project is prepared separately, considering the different goals, objectives, development, management and etc. We are oriented in the best return on investment for a client. Our clients are one of the biggest companies in Lithuania and abroad. Therefore Market Rats team of SEO specialists have expertise working with both local and global projects.
