Description

We at Prewrite specialize in creating customized e-learning solutions that enable your employees to love learning. By using our creative ideas, broad experience, and best tools in the market, we transform your content and learning challenges into engaging digital courses.

Business Line

E-learning

List of products

We, at Prewrite, specialize in creating customized e-learning solutions that enable your employees to love learning. By using our creative ideas, broad experience, and best tools in the market, we transform your content and learning challenges into engaging digital courses. The process of e-learning development includes:

- E-learning scenario based on client's material;
- Designs & Animations;
- Voice over;
- Technical implementation;
- Testing and pilot version;
- Building of SCORM standard package (compatible with most Learning Management Systems);
- Making corrections according to feedback after the pilot version.
