**Description**

Rodeta JSC is based in Kaunas, Lithuania and our main field of business is hotel FF&E projects and contract furniture manufacturing and development. We have been working with hotel refurbishment and new build projects all over Europe for quite a few years now and we are looking for new business expansion opportunities. Rodeta JSC has manufacturing facilities for soft furnishings and solid wood components. Besides manufacturing team we have a back office which consists of 10 professionals in charge of logistics, procurement, planning and all other processes. We supply solid carcass furniture and components, soft furnishings, solid surface products, solid wood furniture and components and variety of other specialist products. We have a strong and reliable supplier base all around Europe therefore we can guarantee that 100% of the furniture we supply is manufactured within Europe and according to the industry standards.
