Description

UAB Vingės Transsphere Logistika (VTL) is a logistics company established in 2005. VTL belongs to the VINGĖS LOGISTIKOS GRUPĖ company consortium. The company's activities have been targeted to a long-term development and growth in the field of logistics. Services provided in the logistics complex of UAB Vingės Transsphere Logistika ensure the optimum inter-coordination of all links of the logistics chain, offering the cost saving logistics solutions for customers, including: warehousing and cargo storage, recipient-specific labeling, excise marks, repackaging, sorting, weighing, quality control, customs brokerage and other related 3PL services. The complex is strategically located to ensure perfect communication routes between the major Lithuanian cities. This logistics centre is located side by side with the highway Vilnius-Kaunas (A1) at a distance of 22 km and 75 km from Vilnius and Kaunas respectively. T-E-A-M : Together Everyone Achieves More!

Business Line

Logistics services
