Description

Our company operates since 2006 with two main activities – production of solid furniture/components and solid surface worktops/sinks. All our products are bespoke (custom-made). ALKENA has experience executing small individual orders for private customers and large volume orders for real estate developers and house builders. We are a reliable partner looking for cooperation with interior designers, real estate developers, other furniture sector companies and offer: - Solid furniture (tables, wardrobes, cabinets) - Solid furniture parts and components - we do cutting, edging, holes drilling, CNC milling. - Solid surface worktops, washbasins, sinks. The company is looking for distributors or commercial agents. These can be home furniture and interior furnishing retailers, wholesalers, interior designers, agents, representatives etc. Also, the company offers solid surface worktops, sinks, washbasins production under subcontracting or manufacturing agreement for furniture manufacturers,

Business Line
