Description

ADAX main objectives - heating equipment development and marketing. ADAX manufactures household and commercial electric heating products under exclusive brands ADAX and GLAMOX heating with the contemporary design and advanced control systems, as well as fan heaters, portable heaters, shoe dryers and drying racks. ADAX emphasize on good design, eco - friendly materials, the user - friendly materials and the user - friendly technology, that contributes to energy efficiency. Due to continuous development and innovation, ADAX today is the market leader in Norway as well as in many parts of the Nordic countries. Moreover, ADAX have large export arrangements to a number of countries in Europe and worldwide. Electric heaters are used to heat various objects: houses, schools, hotels, cafes, restaurants, shops, etc. Electric heating can be used as the main way of heating and as an additional heating source. All ADAX products have full CE mark approval and 5 years warranty.

Business Line

Heating equipment
