Description

We want to make our patented Magnetic Air Drive technology the new gold standard for every contemporary kitchen. A contactless engine to drive a new generation of smart appliances that make food preparation simple, enjoyable and limitless. And all with the goal of inspiring global communities to adopt a healthier and more sustainable diet. millo blender is the first step in this evolution.

Business Line

Consumer Electronics

List of products

We have re-imagined the blender from the base up - and injected some much needed style - to produce a gadget that is unique in both form and function.
