Description

Our story dates back to the end of 19th century, when our ancestor Rochus Sliupas started his medical practice fighting cholera and tuberculosis outbreaks. He later served as a medic in World Wars I-II, during interwar establishing one of the first Red Cross units in Northern Europe. His great-grandson, also Rochus Sliupas, continues family's mission by helping those, who need special care of their healthbeing. Our medical hemp is harvested in organic European fields and extracted in pharma-level facilities. The obtained CBD oil is lab tested and distributed worldwide from the Netherlands and Baltics.
