Description

At Elinta Charge we genuinely believe that every city in the world is beautiful and deserves beautiful charging infrastructure. We also understand that any charging station producer aimed providing the highest possible quality must over-deliver. Simply offering a well-made product isn't enough. It also must be beautiful too! That's why Elinta Charge builds beautiful, RedDot award-winning, premium charging stations which are robust (aluminum case) and made from top notch components (Siemens, Phoenix Contact, Mennekes) and has all the newest features (Dynamic Load Management, Power Balancing, DC monitoring, etc) in the market, complemented by bulletproof marketing strategies and deep expertise of technology-advanced charging stations, that contribute to aesthetic architectural landscapes of your city and country. Have a look to couple of our projects: <https://bit.ly/2TRDYBr> Inquiries: export@elintacharge.com www.elintacharge.com
