## Description

Rubbee is a revolutionary friction drive for bicycles. We design, build, and sell the award-winning electric drives for bicycles called Rubbee X. Our multiple patented technologies allow us to convert any regular bicycle into an electric one without using a single wire. Our product is unique in the marketplace because it is the first e-bike conversion kit that is fully wireless, has easily replaceable batteries, and is extremely easy for the customer to install. With Rubbee X – any old bike can become electric!
