**Description**

IDDO, a Lithuanian furniture and home accessories brand that blends ethno traditions and modern design. We primarily use solid oak in our production, complemented by materials like steel, concrete, cork, leather, linen, and wool. Inspired by Nordic and Baltic nature's simplicity and urban aesthetics, at IDDO we value quality and longevity of our furniture. We prioritize sustainability using high-quality, enduring materials, and collaborate with local designers and artisans to create timeless furniture, aligning with our core value of supporting designers and creators.

**List of products**

IDDO specializes in furniture and home accessories crafted from natural materials that harmonize traditional craftsmanship with contemporary lifestyle trends. A defining feature of IDDO is its fusion of old and new, breathing new life into forgotten materials and design elements within modern concepts. Our product range encompasses various items such as beds, bedsides, tables, racks, coffee tables, easels, shelves, consoles, chairs, poufs and benches, outdoor furniture and various interior details. In addition to selling durable and high-quality furniture, at IDDO we offer furniture rental services, allowing customers to temporarily use their

uniquely designed furniture for events, photo sessions, and personal celebrations. This enables customers to experience the furniture in their own spaces and evaluate its color and design to ensure it meets their expectations. Additionally, IDDO offers the flexibility to personalize furniture dimensions, ensuring that our customers can tailor their pieces to perfectly suit their unique spaces and preferences, allowing you to create bespoke pieces that fit seamlessly into your individual living environment.
