Description

KT Modules is a specialist in manufacturing steel structure buildings and modular systems. Our employees are our top priority, because their contributions are the keys to our business success. We communicate with our clients and suppliers on a personal level and with the highest level of respect. We are not afraid of facing challenges and implementing interesting or non-traditional projects – in fact, that's everyday life for the KT Modules team. The best results are achieved through cooperating and looking for solutions together.

Business Line

manufacturing steel structure buildings and modular systems.
