Description

Eternia Solar are experts in commercial solar solutions that help businesses and public organizations go green. Serving clients from manufacturing, logistics, retail, real estate, and agriculture sectors, Eternia Solar is driving the next wave of solar with industry-leading optimized equipment and smart solutions. Working closely with the needs of our clients, we customize strategies that bring long-term effectiveness for any energy demand. Our team of skilled experts caters to a wide range of solar needs: from planning energy effectiveness and implementing solar energy projects to ensuring efficient operation for years to come. The company is one of the most active market players in the Baltics and currently boasts a large portfolio that includes the largest ground-mounted solar power plant in Lithuania and one of the largest rooftop power plants in the Baltics. Eternia Solar also belongs to a group whose developed projects rank as the 50th largest PV portfolio in Europe.
