Description

We are a newly established producer of ecological fertilizers and granules (pellets) in Lithuania. We produce the highest quality certified fertilizers and sapropel granules. In order to meet the needs and expectations of our customers, we can offer not only sapropel granules and universal fertilizers, but also products for lawn, vegetable and flower care. We aim to become a demanded manufacturer in the market. Therefore we ensure high quality customer service, we also expect long-term relationships with companies and we ensure a good supply of our products.
