**Description**

UAB „Armeni” is the only Lithuanian company manufacturing various delicacies of dried meat products based on the Armenian technology. The company was established in 2006 and since then it has achieved a number of things: its assortment has been extended and is constantly improved and renewed, a modern and contemporary meat processing company has been founded, which conforms to all standards, and the market of product realization undergoes purposeful expansion; products are continuously appreciated at different exhibitions, contests and other events. These are some of the reasons why people choose our products: 1) Premium delicacy products; 2) Exclusive, extraordinary, gourmet taste and aroma; 3) Unique and original manufacturing technology applied by UAB „Armeni”; 4) High quality raw materials selected in a thorough manner; 5) Easy to transport and store, there is no need for special conditions; 6) Low temperatures are used during the manufacturing process, therefore products retain al
