Description

DEXTERA started its activities in 1996, being the first in Lithuania to start producing aluminium blinds. Today we are a reliable and best-known brand on the market in terms of window decor solutions (according to KOG Institute surveys 2019-2020). Competent employees, friendly service, a wide range of materials, reliable suppliers and innovative technological solutions are our five key strengths. We are proud that more than 97% of our customers would recommend others to buy at DEXTERA. We are a reliable company that manufactures and sells high-quality functional solar control solutions for home and business.
