## Description

Founded in 2001, today Baltic Orthoservice, better known by the brand name Ortho Baltic, is one of the biggest producers of custom-made orthopaedic devices in Europe. By combining the expertise of orthopaedic physicians, orthotists, engineers-technologists and IT engineers Ortho Baltic has developed the mass customisation manufacturing system for orthopaedics, enabling the production of high quality custom-made products for the clients located anywhere around the world. Clients are provided with the complete solution for serving patients with custom-made orthopaedic footwear and orthoses.
